SUMMARY

A skilled Frontend Developer with a strong foundation in **React & JavaScript**, adept at utilising Git and GitHub for version control and collaboration. Committed to continuous learning and contributing to dynamic development teams. Seeking a **Frontend Developer role** to leverage expertise in **creating and managing software projects**.

EXPERIENCE

Frontend Intern | NAD TALENT | Sep 2024 - Present | London, UK (remote)

- Engineered & deployed a front-facing resume submission website, handling **1000+ monthly submissions**.
- Developed and designed an internal admin panel, leading a **team of 7 developers**.
- Built and optimised dynamic user interfaces, **improving load times by ~30%** and enhancing user experience across multiple devices.

Technical Forum Moderator | Freecodeacadmeny.com | February 2024 - Present | London, UK

- Forum moderator, overseeing & moderating activity of **300,000+ monthly users**.
- Contributed to over **2,700 code contributions** as part of a team at freeCodeCamp, focusing on enhancing open-source projects alongside many other developers.
- Enforced a strict code of conduct to ensure a respectful and inclusive environment, addressing violations promptly and maintaining a positive community culture.
